DIV. ENT. No. 121

All communications should be addressed to:

"The Commissioner of Agriculture, Washington, D. C."

and the full address of the writer appended by return

U. S. Department of Agriculture,

Washington, D. C., _____, 188

I have received your application for silk worm eggs which arrived postpaid to be filled this year. If you wish to have some sent to you by express, you will please to fill in the enclosed blank and return same. It should be mailed in the accompanying envelope which also contains a postage stamp affixed to the flap.

It is perhaps needless to call to your attention the fact that silk worms can be successfully reared upon the leaves of the aspen or any other native foliage, but of the worst of diseases to which they are liable. Therefore, if the seed worm deposited it will be impossible to rear the worms.

Unless the enclosed blank is returned to me before it is lost or destroyed I shall be unable to supply the same.

Yours respectfully,

NORMAN J. COLMAN,

Commissioner.
